

Part B: Group Project

Transport

Group Meeting Week 3

9th Feb, 2004

Scribe

Roy

Attendees

Hee Dong, Leanne, Roy, Derek, Ayman

Discussion topics

Review the feedback from 1st Crit

What is the way forward

What issues should we raise with project supervisor Cameron Johnstone

Conclusions

| | |
|----|---|
| 1. | Feedback from 1 st Crit Weakness: <ul style="list-style-type: none">• Lack of an explicit objective• Too many directions• CO₂ emissions - DO NOT assume this is related to Global Warming and is evil Fuel - data already available, was covered last year Engines - difficult to make any worthwhile contribution Strengths: <ul style="list-style-type: none">• Style of presentation appropriate for 1st Crit• Signs of good research & planning• ITS - interesting topic. Very topical at the moment, large scope for study General Point: Aim to collect and report own data rather than rely on the findings of others. Corroborate all stats. |
| 2. | Decided to concentrate on ITS and Glasgow City |
| 3. | Must gather details on ITS in other cities and countries and find out about Glasgow city current state. |

Actions for next meeting - Mon 16th at 15:00

| <i>Person Responsible</i> | <i>Task</i> |
|---------------------------|--|
| Hee Dong | Get information on ITS systems in Korea |
| Roy | Gather information on ITS systems in Europe |
| Ayman | Look at ITS systems in USA |
| Derek / Leanne | Gather information on Glasgow |
| Team | List of possible questions we can ask Glasgow commuters in a questionnaire |
| Team | Report back on all correspondents sent so far |
